

V6011 1-Box

Single Module Housing.

FEATURES

- Takes any module from the extensive V1600 range
- Rugged steel construction
- Protected rear connections
- Battery power options

1-BOX has been designed to meet a specific demand from many Pro-Bel customers - to provide a method of housing a single module without the overhead of normal 19-inch rack frame assemblies. Unlike some dedicated single application packages, 1-BOX has been designed to take ANY of the wide range of V1600 modules - anything from a humble DA to a sophisticated Video/Audio Synchroniser. The unit is designed for field operations, and is of rugged steel construction, with all rear connections being protected, and with a recessed power switch.

For situations where mains power is not possible, a version with a standard battery shoe (widely used on cameras) is available. Battery life is dependent on module type, but a day's operation is possible with most modules. The top carrying handle can be removed, and multiple units can then be stacked together with a clip system.

Technical Specification

Power

External PSU	
Input	
Line Voltage	90VAC to 264VAC
Line Frequency	47 - 63 Hz
Input Current	1A rms @ 90VAC 0.5 rms @ 264VAC
Connector Type	IEC 3 pin receptacle

Output

DC Voltage	18V
Output Current	Up to 1.3A
Connector Type	2.5mm barrel jack plug, centre +ve

Battery (optional)

DC Voltage	14.44V (nominal)
Mounting/Connector Type	Anton Bauer Gold Mount

PSU Dimensions

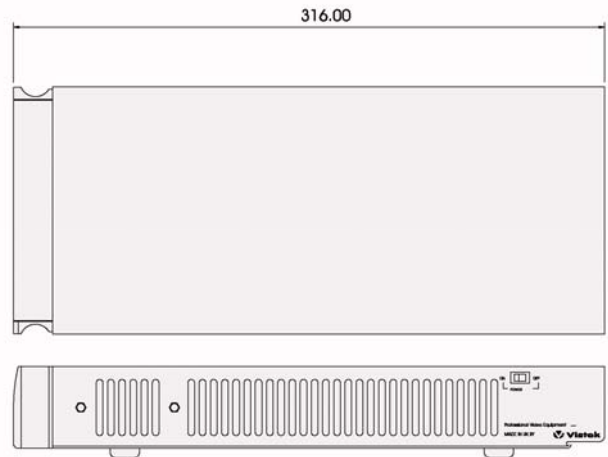

Height	34mm
Depth	119mm
Width	60mm

Environmental

Operating Temperature	0 deg to 40 deg C
Storage Temperature	-10 deg to +70 deg C
Relative Humidity	0 - 95% non-condensing @ 40 deg C
